The World of CSS »

2007-10-31 Kei Kubo released the 1.0 beta version of CSSEZ, an online CSS authoring tool that has many layout templates, background image maker, and other features. Requires Javascript. (Safari, Firefox, Internet Explorer; free; in Japanese)

2007-10-08 For those who find the CSS grammar rules difficult to read, Rikkert Koppes has made visual "railroad diagrams" of the syntax of CSS.

2007-10-08 Andy Clarke (graphic designer and member or the CSS working group) announced the "CSS Eleven," a group of Web developers and designers who intend to explain and illustrate the various CSS modules as they are developed.

2007-09-05 Westciv again started its free, self-paced, on-line CSS level 1 course. Already in June, but the announcement here got lost ☺)

4 WHAT IS CSS?

Cascading Style Sheets (CSS) is a simple language for adding style (e.g. fonts, colors, spacing) to Web documents. Tutorials, books, mailing lists for users, etc. can be found on the **learning CSS** page. For background information on style sheets, see the **Web style sheets** page. Discussions about CSS are carried out on the **Public Mailing List** mailing list (**archive**) and on the **CSS blog**.

5 WHAT'S NEW

6 CURRENT WORK

7 THE WORLD OF CSS

8 FOOTER

Version one present a large introductory area at the top of the main page with modules underneath to allow access to the most recent Work Group activities and recent CSS content on the Web.

1 Fixed Header

The header will remain fixed at the top of the browser window for quick navigation and search access. The header elements will stack ass needed for narrower browser widths.

2 Language selection

Users can switch to other languages to view the site.

3 Specifications Quick Links

Provides the major links to the CSS specifications and profiles. This could be used instead for quick-links to testing pages or other important areas of the site.

4 Introduction

Cntroductory text underneath that helps guide first time visitors.

5 What's New

Important news about the Work Group. This list will *not contain* general CSS information links anymore.

6 Current Work

Overview and links to most recent status updates on Work Group projects.

7 The World of CSS

Links to General CSS related articles and information not associated with the CSS WG site.

8 Footer

Redundant navigation links and other "small print" info.
